Ann,

Remember World History and all the
fun you had trying to find out who was
writing those notes. Did you know Mrs. Rambow
wrote some of them? Remember Rick Linder,
I know I'll never forget him and I know
you won't. We were both crazy about him,
but in the end you won. Well I'm signing
off. Good luck in the future and much

happiness.

And in this mist at

To acknowledge the 400th anniversary of the birth of William Shakespeare which is being celebrated throughout the world this year, the Mato Paha staff has drawn upon "The Works" to establish the theme for the 1964 edition . . . The stream of English heritage which has nourished this nation since the early 17th century gushes from the closeness of man and nature and culminates in a spiritual relationship which even Shakespeare found irresistible. Because he savored this identity of man with nature, we are reminded that man "Finds tongues in trees, books in the running brooks."

As You Like It, Act II, Scene I, Line 16

all adventures go—

Comedy of Errors

Act II Scene 2, Line 218

As our mountains stand eternal, symbolizing the self-perpetuating process of life, man becomes its highest perfection. Our happy streams chatter over their rocks--and occasionally out of their banks--as their crystal water feeds the land about them . . . our trees in season flick their leaves like baubles while the majestic evergreens deny the ritual of death . . . Thus as we, the products of devoted teachers, live within the groves of academe, we, too, are young and burgeoning trees reaching for the sun, blossoming into beauty, gaining strength and courage to stand against the storms, and letting our roots run deep into the past for enrichment and wisdom. And, there may be among us "Two striplings--lad more like to run the country."

Cymbeline Act 5, Scene 3, Line 20

In Memory Of

*"Ask not what your country can do for you—
ask what you can do for your country."*

J.F.K.

"Woe to the hand that shed this costly blood!"

Julius Caesar
Act III, Scene 1, Line 258

"I believe in an America where every child is educated, not according to his means or his race, but according to his capacity."

John F. Kennedy

"Democracy demands more of us than any other system in education, character, self-restraint, self-discipline. How are we going to get the best education in the world? One of the best ways is to have the best-trained teachers . . . Our progress as a nation can be no swifter than our progress in education. The human mind is our fundamental resource."

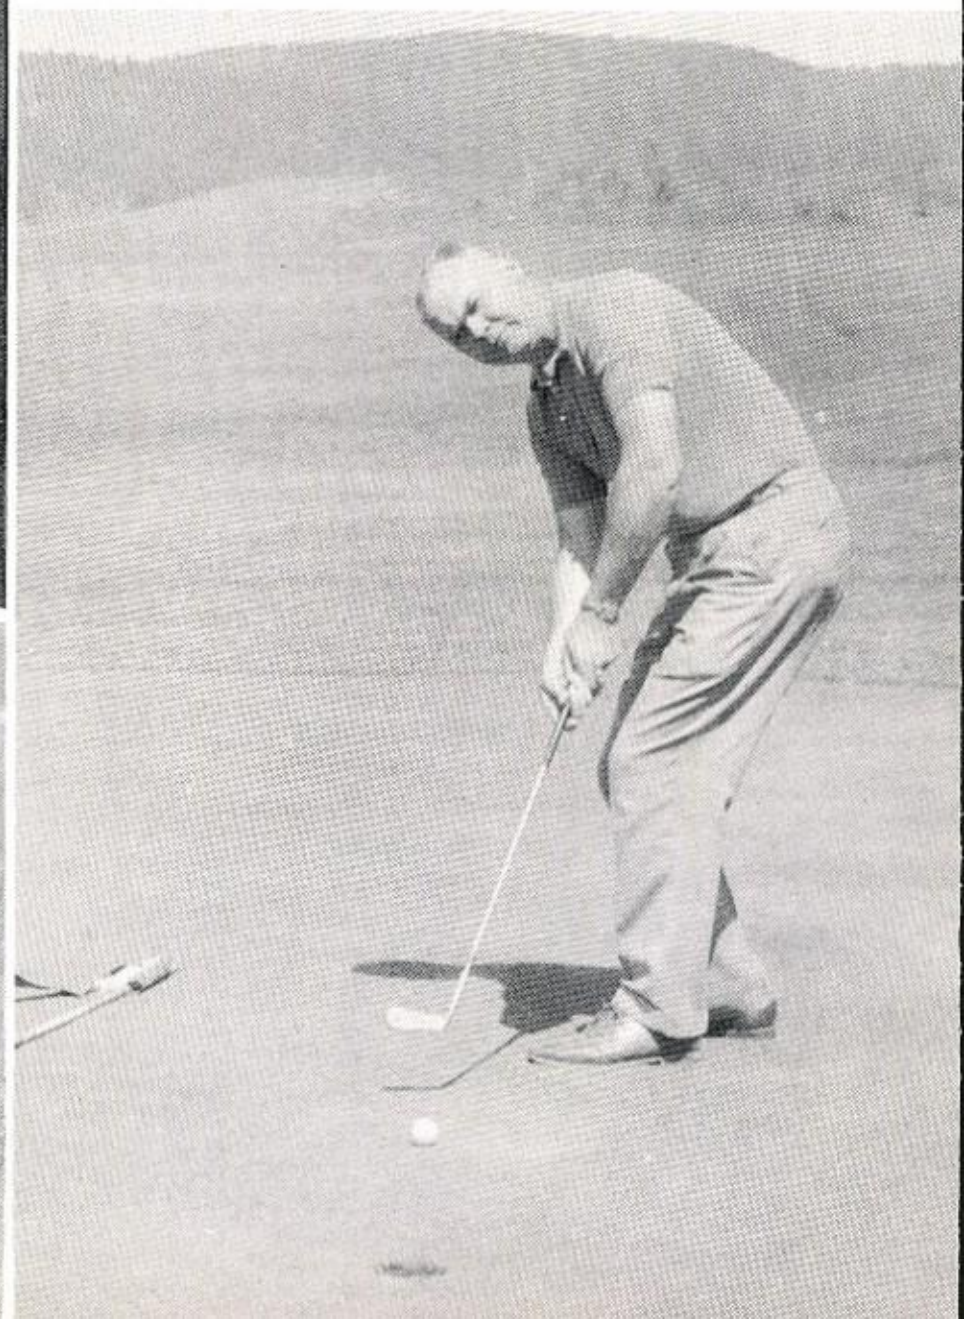

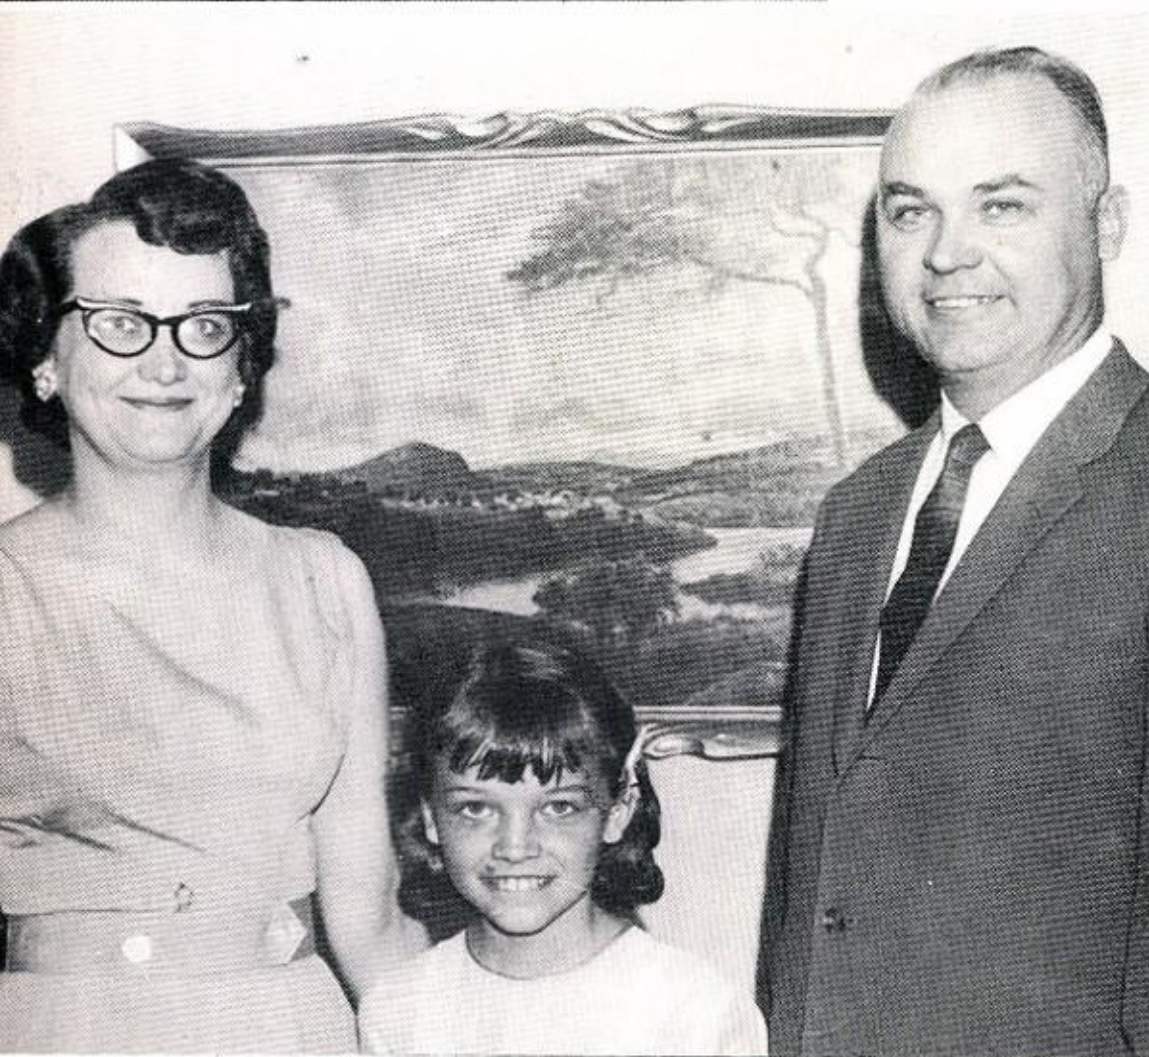

John F. Kennedy

For the past six years Mr. Donald D. Dubbe, biology teacher at Sturgis High, has served as advisor to the Mato Paha Staff. Each year he has put himself-his time, his patience, and his advice-toward the production of the Mato Paha. As an advisor he continually encouraged the imaginations, ideas, and creativity of the staff. We also acknowledge with appreciation his consistent patience.

The events of 1964 belong to history, the achievements belong to the student body, and the memories belong to each of us. The Mato Paha preserves all these facets of 1964 and we want this to belong to Mr. Dubbe.

Today, tomorrow, or in years to come it pleases us to know that whenever the 1964 Mato Paha is opened and read our sincere salute to Mr. Dubbe will again be made manifest.

To be said an honest man and a good housekeeper goes as fairly as to say a careful man and a scholar.

To me, fair friend, you never can be old,
For as you were when first your eye I ey'd
Such seems your beauty still. Three winters cold
Have from the forests shook three summers pride,
Three beauteous springs to yellow autumn turn'd
In process of the seasons have I seen,
Three April perfumes in three hot Junes burn'd,
Since first I saw you fresh, which yet are green . . .

The Duchess Gloriana, a pretty young girl, is the sovereign of a microscopic country in the Alps, founded centuries ago by a roving band of English Bowmen. Gloriana's unique solution to the near bankruptcy of her tiny domain is to declare war on the United States! There's method in her madness, however, for her study of recent history suggests that the surest way to wealth today is to lose a war with the United States for the peculiar reaction of that odd coun-

Dear Al,

Remember all the fun we have had running up and down the hills. Boy, it sure has been a blast knowing you. Remember the fun at the games when we didn't even watch them! Wish you all the luck in catching you know who! The best of luck in the world to the sweetest girl I know and don't chase the boys too hard.

(Dress who just asked me to sign his annual!)

Debbie

A good friend,

Remember all the fun we had in S.H.S. and in Study Hall. (No) I wish there was a party tonight but I guess there isn't.

Ann,

Don't go getting upset about me! Remember all the fun you've had in Sturgis High School and Mrs. Parkinsons Mr. Hist. class. Just stay out of trouble if you can and you'll be a long way.

Love
Jack &
Jane Rodger
